The early years at The Mount Washington School

MIDDLE ELEMENTARY YEARS

5TH GRADE

As we worked throughout this school year we have learned many new things. We understand that we are the future and that what we do and say will have an impact on the world. We express our opinions and make our identities known. "Our voices are strong, we're here to be seen, we are The Mighty Class of 2018." Listen as we express who we are.
